Why is our Dough so Crispy, & Delicious ?

Well, a lot of fast-food pizza places claim "dough made fresh daily".

So what !!!

Great tasting dough requires time to develop a "complex" taste. Like beer or even fine wine - time is needed so the yeast can ferment and impart "character" to the dough.

It's a symphony of delicate interaction between yeast and sugar that makes a great crust. Red Rock makes it right at home. mushrooms, sweet red onion, green marinara.

Personal 10* - \$9.50, Medium 14" - \$18.99, Large 16" - \$20.99, Jumbo 18" - \$24.99
And let's not forget about the flour. You can get cheap flour all day long. But it will never make a great crust.

Here's why. A very high protein content is absolutely required to bake a great crust. Inferior flour doesn't have the gluten needed to support the gas that causes the crust to rise during baking. Poor cell structure results in limp, (often soggy) pizza crust.

We use High gluten "Spring Harvest" flour.

And we age our dough (called proofing) so it can develop the wonderful complex flavor that makes it taste so fantastic.

What size Pizza should I get?

A Personal Size 10" Pizza will more than satisfy that craving for a little more than a slice.

Our Medium 14" Pizza will usually feed two people. Add a salad and its perfect meal for two.

A Large 16" Pizza is perfect for feeding Mom & Dad and a little one. Perhaps a Calzone or add a salad and your stuffed !!!

A Jumbo 18" Pizza makes sure the whole group is feed well. Try some Chicken Wings or a Stromboli and a Large Salad and consider the Hunger Done !! and
